

Filter Screens Styles

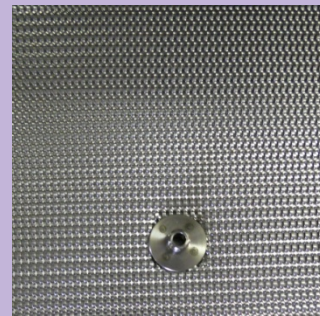

Determine the type of screen system that you have.

3PC./Pull-Apart Screen System

For 3PC./Pull-Apart screen systems the connector for the standpipe is welded to the inner screen (baffle) and in this type the filter pad envelope would have a hole through one side only.

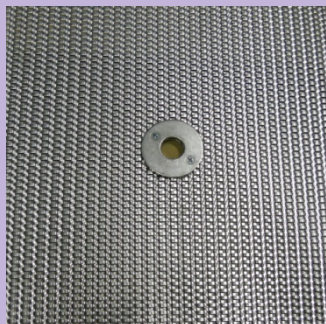

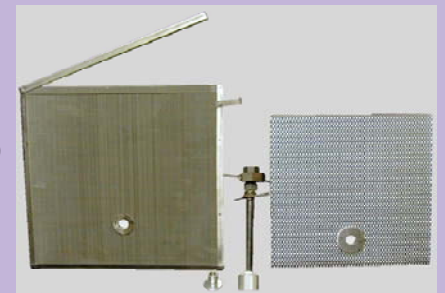

12 x 12" Center
GYCOR Item# ESA-174

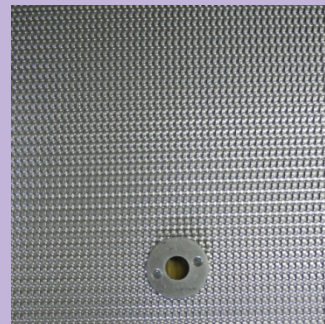

12 x 12" Off-Center
GYCOR Item# ESA-173

Envelope/Pull Out Screen System

For Envelope/Pull Out screen systems the connector for the standpipe is NOT welded to the inner screen (baffle) and in this type the filter pad envelope would have a hole through both sides.

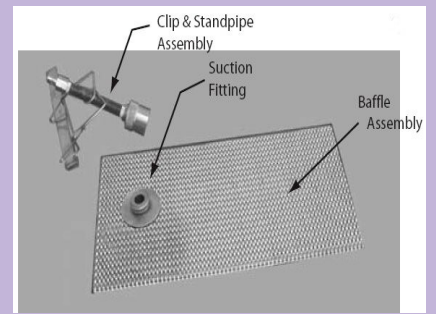

13 x 13" Center
GYCOR Item# CH1630

13 x 13" Off-Center
GYCOR Item# ESA-167

Large Filter Screen Assembly System

For the Large Filter Screen Assembly systems the connector for the standpipe is welded to the baffle and the clip is connected to the standpipe. In this type the filter pad envelope would have a hole through one side only.

**21 x 29" Off-Center
GYCOR Item# ESA-156**
